

Please do whatever you can to stop Sinclair from trashing this election. However, the bigger issue is that we need to reinstitute the Fairness Doctrine and stop the monopolization of media outlets in the country. When people are uninformed or informed incorrectly... well, look what has happened! We have a President who was not duly elected, who took us to war for some hidden reasons, plundered our treasury, is killing our environment, protecting the wealthy over the weak, and generally selling us up the river as the Corporate States of America! On every front, this President has failed us.

I beg you to work for the people and help bring back our democracy step by step.
